

I am sick and tired of being bothered by soliciting. I am tired of running to the phone when I am caring for my child just to hear someone talk about something I don't care about at any hour. I want the DO NOT CALL to stay. I also would like charity organizations to be forced into this as well. I am sick of being bothered by organizations claiming I gave them money when I did not just to rope me into giving more. Police must have 6 different org. alone that sound alike wanting money. It is a big scam and it needs to stop.
